## ELISA: abbiamo la soluzione per te!

Versione 2016/01

Possiamo offrirti la soluzione più adatta alle tue esigenze, facendoti scegliere tra:

800-832027  
ricerca@prodottigianni.com

## Kit Elisa pronti all'uso (Instant)

Il nostro listino comprende una vasta gamma di kit ELISA pronti all'uso, anche marcati CE

Una soluzione unica, ideata da eBioscience Bender MedSystems, sono i kit Instant ELISA, saggio quantitativo immunologico più semplice e preciso rispetto a un ELISA convenzionale.

Tutti i 96 pozzetti costituenti la piastra contengono i reagenti necessari liofilizzati che vanno a creare un pellet sul fondo del pozzetto. E' necessario unicamente reidratare i pozzetti e aggiungere il campione da analizzare; dopo l'incubazione si passa direttamente ai lavaggi. Anche gli standard della curva di calibrazione vengono forniti fissati in piastra. Le due strisce dei positivi sono a parte: per questo i kit Instant ELISA permettono l'analisi di 96 campioni reali!

## PhosphoElisa

eBioscience mette a disposizione anche la nuova linea InstantOne ELISA, saggio che rappresenta un'evoluzione del tradizionale sandwich ELISA in termini di sensibilità, specificità e flessibilità

L'InstantOne ELISA, infatti, richiede circa 1/3 del tempo di un ELISA tradizionale, 1/4 del lavoro (riduce i passaggi ad uno solo) permette di rilevare una grande varietà di molecole target sia nella forma totale sia in quella fosforilata, necessita solo di 2-3.000 cellule per singolo campione ed è compatibile con la lettura colorimetrica.

## Componenti per kit ELISA

Low budget?  
 Proponiamo anche kit contenenti tutti i componenti per realizzare il proprio test ELISA.
