FORMULATIONS & TECHNICAL MARKETING PROFILE

ST4-0-10 GET YOUR SKIN GLOWING STICK

This creamy formula can be applied on bare skin or over the foundation to illuminate and to reduce skin imperfections by reflecting light. It also contains butters to give emolliency and moisturizing properties.

ST4-0-09 SELFIE READY PRIMER

This easy-to-apply face primer covers imperfections, blurs pores, smooths fine lines and naturally mattifies creating an even skin surface for better-looking and longer-lasting make-up

ST4-0-11 STICK THE STRESS AWAY!

Stick foundation that provides the skin with a natural and matte finish, thanks to its ability to absorb oils. It also gives a creamy and silky feel.

ST4-0-12 WRINKLE FIRING AND COOLING EYE-STICK

An easy to apply W/S stick for eyes area. It leaves the skin fresh and hydrated without residues. Stoechiol relaxes the wrinkles for an immediate anti-age effect.

ST4-0-07 PICK-ME-UP WATER FRESH STICK

A natural based W/O stick that gives a quick boost hydration and refreshing effect. The formula is enriched with aloe, marine exopolysaccharides, radical scavenger and creamy olive waxy butter.

Prov0018 PUREENERGY CHARCOAL CLEANSING STICK

A natural-based, purifying and energizing oil-to-milk face cleansing stick that releases charcoal upon application and gently exfoliates skin, leaving it smooth, clear and radiant.

TECHNICAL MARKETING PROFILE

ST4-0-10

GET YOUR SKIN GLOWING STICK

A **moisturizing** pocket **stick** with **glow effect** containing avocado and jojoba butters. It gives **light** to bare skin or **refreshes daily make-up**. **Bright Oleoactif** provides a **brighter complexion**.

Key Ingredients

Eldew PS-203R: from vegetal origin, it is an ester with **ceramide-like function**. From a technical point of view it **prevents wax recrystallization** and **improves stability** of the stick.

Technical Plus

Wickenol 131: a fluid ester with **emollient** and **lubricity** properties. Texture is comfortable and it easily glides in application.

Active Plus

Bright Oleoactif: oil-based extract of licorice, marshmallow roots and rice bran in rapeseed oil that **brightens skin**, promotes **hyperpigmentation reduction** and **skin whitening** through complementary pathways.

Unique plus of the formula

A **moisturizing** stick with **refreshing** and **glowing effect** on skin or make-up.

Consumer benefits

Applied **before** make-up: It **moisturizes** and **nourishes** the skin.

Applied **on** make-up: It instantly gives **radiance** to skin tone and make-up.

Free of:

- Sulfates
- Synthetic Dye
- Fragrance

SELFIE READY PRIMER

This primer glides easily onto skin thanks to **AJK OD 2046**. It naturally blends into skin and **adjusts to every complexion** thanks to microencapsulated pigments **Magicolor103**. **Pores and fine lines are instantly blurred** by **Elisphere A812** and **Prizmalite P2015SL**, while **GelMatte 511 controls shine** and improves skin adhesion. **Corneosticker DS** and **Bright Oléoactif** smooth skin and **brighten complexion**.

Key Ingredients

Magicolor 103YP: patented multi-layer encapsulated iron oxide pigments that can move from white to revealing color or color to revealing white. Capsules have different polymer coatings to address sensory, stability and release performance. It has a unique product application with "Color Reveal" story.

Technical Plus

AJK OD 2046: a rheology modifier that gives the chance of obtaining **completely clear anhydrous systems**. As a result, **colour is more powerful** and **vibrant**.

Elisphere A812: provides a great **soft focus effect**, acts as a **texturizer**, **absorbs sebum** and **thickens lipophilic systems**.

Prizmalite P2015SL: it is a texturizer made of glass spheres with particles size of 10 micron. It acts as a magnifying lense, enhancing pigment effects. It gives soft-focus too, thanks to its spherical and transparent shape. The result is a higher colour yield.

Active Plus

Corneosticker DS: corneo-mimetic powder that **instantly perfects skin**, **blurring imperfections** and improving skin surface. After 2 weeks use, the **skin is smoother, softer, more luminous and flawless**.

Bright Oleoactif: Oil-based extract of licorice, marshmallow roots and rice bran in rapeseed oil that **brightens skin**, promotes **hyperpigmentation reduction** and **skin whitening** through complementary pathways.

Unique plus of the formula

Multifunctional face primer that creates a **perfected canvas** for easier make-up application.

Consumer benefits

- Blurred imperfections and pores
- Smooth skin
- Even complexion

Free of:

- Silicones
- PEG

STICK THE STRESS AWAY!

Perfect coverage all around with this **pocket stick foundation**. Our **FDP series** pigments give the perfect colour match with different kind of complexion shades and have also great texture. **Prizmalite P2011SL** is a texturizer that enhances colour of pigments. **Blue Oleoactif** effectively **protects cells** from urban pollution and blue light, and **boosts** their defense system.

Key Ingredients

FDP-C-White3: must-have treated pigments for silicone-based formulations, with high consistency of the shade, no need for colour-matching. The colour consistency allows to skip the colour matching stage at the end of the manufacturing process.

FDP-C-Red3: must-have treated pigments for silicone-based formulations, with high consistency of the shade, no need for colour-matching. The colour consistency allows to skip the colour matching stage at the end of the manufacturing process.

FDP-C-Yellow3: must-have treated pigments for silicone-based formulations, with high consistency of the shade, no need for colour-matching. The colour consistency allows to skip the colour matching stage at the end of the manufacturing process.

FDP-C-Black3: must-have treated pigments for silicone-based formulations, with high consistency of the shade, no need for colour-matching. The colour consistency allows to skip the colour matching stage at the end of the manufacturing process.

Technical Plus

Prizmalite P2011SL: it is a texturizer made of glass spheres with particles size of 4 micron. It acts as a magnifying lense, enhancing pigment effects. It gives soft-focus too, thanks to its spherical and transparent shape. The result is a higher colour yield.

Active Plus

Blue Oleoactif: it has nourishing and antioxidant activity, it is effective against hyperpigmentation due to blue visible light and it inhibits the damages to the skin due to pollution.

Unique plus of the formula

A pocket size product with **high colour performance** and **great texture**.

Consumer benefits

- **pocket size** foundation
- **comfortable texture**

Free of:

- Sulfates
- Synthetic Dyes

WRINKLE FIRMING AND COOLING EYE-STICK

A pocket-size must-have stick that can be used to **moisturize** and **fresh up** the delicate skin around the **eyes** at any time of the day. **KSG-19** gives **softness** to the product during the application. Combined with **Stoechiol**, a liposoluble extract of Lavandula stoechas, with a **botox-like action** that relaxes the wrinkles, it gives an **immediate and long-term anti-aging effect**.

Key Ingredients

KSG-19: silicone crosspolymer. Clear and completely odourless, it can be used as texturizing and thickening agent in emulsions and anhydrous products. It has a dry and silky feel.

Technical Plus

KF-96A-6cS: high quality light dimethicone, suitable for the eye contour thanks to its low volatility and purity.

Active Plus

Stoechiol: liposoluble extract of the seashore plant Lavandula stoechas, it shows an immediate anti-wrinkle action coupled with a long-term anti-age effect that continues beyond the end of treatment.

Unique plus of the formula

A pocket-size eyes stick that instantly **cool** and **de-puff** tired eyes while **minimizing the appearance of fine lines**.

Consumer benefits

- **hydrates and sooths** eye area
- **fresh** sensation
- **reduces** the appearance of **fine lines**

Free of:

- fragrance
- parabens
- petrolatum
- sulfates

PICK-ME-UP WATER FRESH STICK

This pocket stick is a refreshing product to pick up anytime during the day to refresh skin with or without make up on. It is activated by three ingredients: Aloe Vera Gel Spray-Dried Powder 200X, with its moisturizing and soothing properties, Life Oleobooster, a mix of Stevia, Cistus and Rapeseed Oil with a brightening effect, and a exopolysaccharide with a mattifying activity, EPS Seamat PA. This mattifying action is improved by Amihope LL, a L-Lysine derived texture enhancer. A light feel oil, Vegetable Alternative to Silicone, is used.

Technical Plus

Amihope LL: amino-acid derivative made from L-Lysine and a fatty acid. It imparts a soft and silky feel to the skin as well as excellent emolliency and also **can relieve drying feel** of inorganic powders. The particles have flat and hexagonal shape, resulting in **excellent adherence** to skin which provides long wearing properties.

Active Plus

Aloe Vera Gel Spray-Dried Powder 200X: **soothing** and **moisturizing**, it is the perfect ingredient for sensitive skin.

EPS Seamat PA: derived from Marine Biotechnology, it is a Marine Exopolysaccharide with a unique and completely new structure which gives it the property of an immediate mattifying agent.

LIFE Oleobooster: it protects the mitochondria, helping the cells to maintain their optimal energy levels. The consequence is smoother, brighter and revived skin.

Unique plus of the formula

A pocket product with **moisturizing** and **mattifying** properties.

Consumer benefits

- pocket product easy to use
- refreshing action
- mattifying effect

Free of:

- Silicones
- Sulfates
- Synthetic Dyes

PURENERGY CHARCOAL CLEANSING STICK

This portable stick **cleanses skin without drying it out or leaving a greasy film** thanks to the gentle yet effective polyglycerols combination of **Hexaglyn 1-OV** and **Decaglyn 1-L. GS-MHP**, an ultra-light plant-derived ester, helps **dissolving sebum and dirt**, while **Lipovol C-76** ensures skin's **spreadability**. It is formulated with **Ecoscrub 80PC** to **gently exfoliate** skin, **Magicolor 150W/CHC** to **release detoxifying charcoal** upon application, and **Lipobead Detox with Charcoal** for added visual and exfoliating effect. **Life Oléobooster** protects **skin energy**.

Key Ingredients

Hexaglyn 1-OV: PEG-free liquid hydrophilic emulsifier with vegetal origin.

Decaglyn 1-L: a plant-derived PEG-free solubilizer for cleansing application, emulsions and wet wipes base. It is an excellent foaming booster and sebum remover.

Technical Plus

Magicolor 150W/CHC: patented multi-layer encapsulated charcoal powder that moves from white to revealing color upon application. It has a unique product application with "Color Reveal" story.

Active Plus

LIFE Oleobooster: it protects the mitochondria, helping the cells to maintain their optimal energy levels. The consequence is smoother, brighter and revived skin.

Unique plus of the formula

An easy to use **charcoal-releasing oil-to-milk cleansing stick** that leaves the skin hydrated, energized and radiant.

Consumer benefits

- **Convenient** cleansing
- **Non-drying** afterfeel
- **Energizing** and **purifying**

Free of:
